Los Angeles Zoo: A Community Resource

Learning & Engagement during the COVID-19 pandemic Zoo closure
We foster lasting relationships between our communities, nature and animals
We foster lasting relationships between our communities, animals and nature.
Two factors contribute most to children developing into adults who take action to benefit nature: positive direct experiences and role models. – *Children and Nature Network*
We are catalysts for active experiences with nature and animals
We nurture nature mentors

Nature Tries

L.A. Zoo Nature Tries Make Art With Nature
WATCH LIVE: On today’s virtual Summer Learning Day, we’ll learn to draw Elinor from Elinor Wonders Why and do an art activity with our friends from the Los Angeles Zoo and Botanical Gardens. Sharing your experience? Use #PBSSoCalLearningLive on all platforms! Can’t wait to see your drawings!
Virtual Field Trip

Join us for a virtual field trip to your Los Angeles Zoo. The L.A. Zoo is an amazing place to experience nature. This field trip can be used by anyone, including teachers, guardians, and students. Use our Virtual Field Trip Guide to help you find the things you need to make this the perfect experience for you. Have fun exploring!

A popular snack of kids in Australia:

**Fairy Bread**

1. Choose a bread slice.
2. Spread butter or butter substitute onto bread.
3. Apply a layer of sprinkles to bread.
4. Enjoy eating your Fairy Bread while listening to a story!

Click here for story time with a wombat!

**Diary of a Wombat**

by Jackie French

Illustrated by Bruce Whatley

Parental Involvement: Low

---

**Paper Koala Face**

Just like in the story, wombats eat a lot of different foods, but koalas eat only 1 type of food:

Koalas eat eucalyptus! They eat so many eucalyptus leaves that they even smell like eucalyptus!

1. Rip newspaper or magazine pages into medium-sized pieces.
2. Glue pieces to a paper plate.
3. Decorate with eyes, nose, and ears.

Bonus: Spray with eucalyptus oil to smell like a koala!

Eucalyptus grows here in LA. Do you have Eucalyptus in your neighborhood?
Los Angeles Unified Summer School
Migrant Education Program

Orangutans are herbivores; they only eat plants and fruit, but sometimes they eat ants. This is the diet of orangutans.

WEEK #4

SUMMER PLAY L.A.
PARTICIPANT SURVEY

FUN:

CRAFTS:

TEACHERS:

ANIMALS:

WHAT WAS YOUR FAVORITE PART?

My favorite part is:

Ummm- EVERY THING.

WHAT WAS YOUR FAVORITE PART?

- finding out the stories about
the animals
- meeting the elephants
(billie, shyanya, tina, jake)
I'm slightly obsessed
with them
